

This is a list of words to be used along with Equations – Section 8: Solving Absolute Value Equations. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

**Section 8: Solving Absolute Value Equations**

<b>Words Students Input</b>	<b>Words For Your Word Wall</b> <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
positive reversed subtract left	absolute value equation solution integer coordinates
