STEP 1 – An Introduction

- “UMathX by Neufeld”, 10th version of “Understanding Math”, is an **Exploration of Mathematics Content** and **Teaching Methodology** within a digital learning environment for K to Algebra 1. It offers over 3500 lessons where implementation is modeled through 3 part tiered lessons in a variety of learning environments supporting a growth mindset, encouraging learners to grapple with concepts towards constructing new knowledge through understanding – concrete to abstract.
- "UMathX by Neufeld" Constructs Meaning through two menus. The **Content Menu** fills gaps by scaffolding mathematics along a conceptual path, across grade levels. The **Curriculum Menu** offers lessons aligned to curricula. 3 part tiered lessons, “frameworks for learning”, offer solutions to intervention. **Data Analysis** redirects learning in next steps through Content & Curriculum Tests.
- UMathX by Neufeld is partnering with Faculties of Education to **Conduct Research** on **Constructing Understanding** of **Content** as well as on **Teaching Methodology**.

For Home and School
K to Algebra 1 (10th Grade)

Build Knowledge for Student / Parent / Teacher

“Content and teaching
methodology are exceptional.”
-Faculties of Education

Lessons online and on paper

- **The Learning Environment:**
“As a former Texas district mathematics leader, I promoted the district-wide purchase and use of previous versions of this system due to modeling, strategies and visual connections.” Dr M.K.

“Our teachers have used it extensively with parents, teachers and students. UMathX is perfect to support research and instruction to teacher candidates.”
S.C. TDSB Toronto

“UMathX helps students gain conceptual understanding better than any other program.
Content and Teaching Methodology are exceptional.” Master Teachers, Faculties of Education

“UMathX is by far the most effective learning tool for mathematics that I have seen.” JS - Australia

STEP 2: Login to UMathX

Open up the FIREFOX browser on your laptop or desktop computer.

Key in www.umathx.com and check the UMathX website briefly.

Now key in www.umathx.com/preview

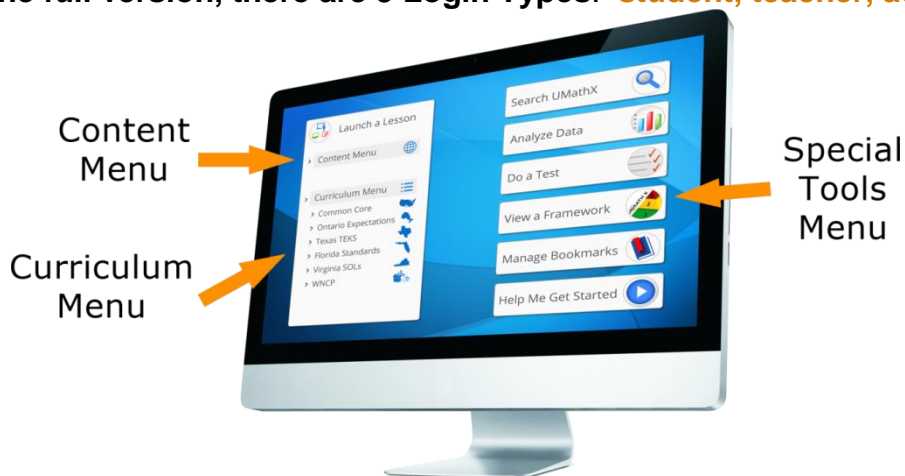

Use the generic login, **countt**

Use the generic password, **umathx**

a) We will lead you to Explore:

1. A Content Menu to FILL THE GAPS
2. A Curriculum Menu aligned to your curriculum
3. “Frameworks for Learning” .. 3 part lessons

In the full version, there are 3 Login Types: **student, teacher, administrator.**

THE CONTENT MENU ...

ELEMENTARY
Example:

<PROCEED> IS ...

the way that UMathX controls the pace.

It ensures attention to tasks and separates the pieces of the concept being built.

STEP 3: Explore Menus & Frameworks(Ask for Webinar if you wish)

● Select “CONTENT Menu”

Follow the path below in order:

1. **Fractions** > Equivalent Fractions > Pattern Blocks. Click on (arrow up)(arrow right)(arrow left)(double arrow up) **Content Menu** .. Fractions > Equivalent Fractions > Pattern Blocks > Hexagon1 to work through lesson, Hexagon1

2. Double click on “This is one Whole Hexagon” on the first page to have the line read and highlighted.

When <proceed> appears on the bottom right, click on it.

Key in “1”, then press <enter>. Key in “2” then press <enter>. Now click on <proceed>.

Enter a number ... try the number .. “2” .. three times before entering the correct answer.

NOTE- Encourage students to risk. A mistake is an opportunity to learn.

UMathX QUICKSTART WNCP	A QUICKSTART into UMathX (K to 10 ..10 th Version of “Understanding Math”)
<p>The Frameworks are 3 part model lessons on paper. They give ideas for implementing UMathX.</p>	<p>3. Click on the 2nd icon at the top of the screen, MENU. Now navigate to Hexagon1 and complete the lesson. A blue screen with two options – GO BACK .. or .. CONTINUE, marks the end of a lesson. Return to the Main Menu.</p> <ul style="list-style-type: none"> ● Select “CONTENT Menu” and again follow the path below in order: Content Menu..Fractions > Equivalent Fractions > Pattern Blocks > The green pencil beside “Hexagon1” indicates that a corresponding printable framework is available. Click on pencil. Option 1: After printing it, follow the lesson outline on the framework. Option 2: Earlier (above) you followed the lesson “Hexagon1” within UMathX. Return to the Main Menu. ● Select “CONTENT Menu”. and follow the path below in order: Fractions > The Meaning of Fractions > Introduction... Think, Write, Say. The green pencil beside “Circles” indicates that a corresponding printable framework is available. Click on the pencil. Option 1: After printing it, follow the lesson outline on the framework. Option 2: Follow the lesson “Circles” within UMathX. Return to the Main Menu.
<p>THE CURRICULUM MENU ...</p> <p>ELEMENTARY Example:</p> <p>THREE PART MODEL LESSONS (FRAMEWORKS)</p> <ol style="list-style-type: none"> 1. Tie on-screen knowledge to it’s concrete expression off-computer 2. Provide support for RTI & STEAM models. 	<p>Select “WNCP CURRICULUM Menu”. Follow this path in order:</p> <ol style="list-style-type: none"> 1. Grade 5 then N-Number, then Number Sense. . Click (arrow right)(arrow left)(arrow up)(double arrow up). 2. Select WNCP. 3. Click .. Grade 5 > N-Number > Number Sense > 07. You have now reached suggested lessons to fit 5.N.7 4. You now have 2 choices – Tab 1 – “Lessons” and Tab 2 – “Frameworks” 5. Select Lessons. You are at lessons selected from the Content Menu for 5.N.7. Lessons are in order that we recommend that they be taught. 6. Double Click the 3rd lesson- Fractions > Equivalent Fractions > Pattern Blocks > Hexagon1 (Remember this?) Do a few <proceeds> into the lesson. 7. Exit the lesson by clicking on the 2nd icon at the top of the screen, MENU. You are returned to the Selection Menu within the Curriculum Selection, 5.N.7, ready for another choice. 8. Click on tab “Frameworks”. You see tiered 3 part model printable lessons which give ideas on implementing UMathX. 9. Double-Click on ... Equivalent Fractions -1.pdf. Note the 3 part lesson. It can be printed in colour or in black and white double sided to save on paper. This can be given to a student or a pair of students as a plan for implementation of UMathX. Note that the instructions to the student(s) direct them within the Content Menu. 10. Return to UMathX, by moving the mouse to the top of the screen and click on the X for Equivalent Fractions -1.pdf. <p>Select “Help Me Get Started” on the Main Menu. “UMathX Videos” will appear. Select and play the video, “Frameworks for Learning”</p>
<p>CONTENT MENU & CURRICULUM MENU ...</p> <p>SECONDARY Example:</p>	<ul style="list-style-type: none"> ● Select “CONTENT Menu”. Follow this path in order: Graphing > Linear Relations > The Elastic Example. Note the green pencil icon beside the lesson, “Setup Equations” . Click on it to display the framework. Option 1: After printing it, follow the lesson outline on the framework. Option 2: Follow the lesson “Setup Equations” within UMathX. Return to the Main Menu.

MODEL LESSONS
(FRAMEWORKS)

Framework Role:

Model Lessons

Implement:
RTI
STEM

The FRAMEWORK offers another way to use UMathX

. It saves the teacher time and effort.

PLAN A LESSON:

Use a prepared lesson, a Framework, if possible.

OPTION 1

1ST CONTENT MENU

2ND FRAMEWORK

OPTION 2

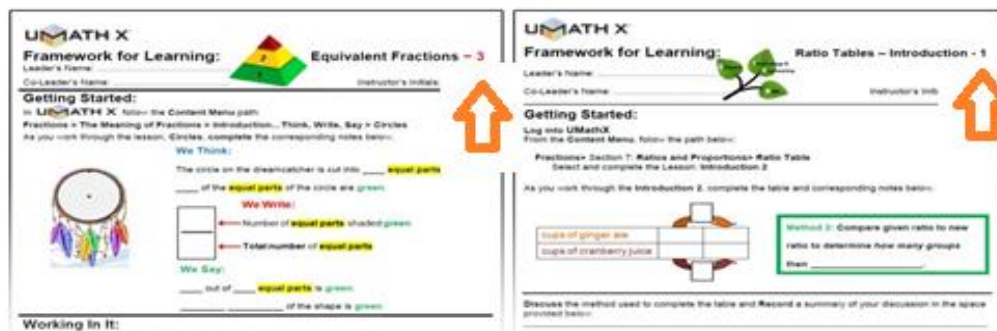

1ST CURRICULUM menu

2ND LESSON PATHS

3RD FRAMEWORKS

- Select the **WNCP CURRICULUM Menu**.
Follow the path to **9.PR.2**
Click on tab “**Lessons**”.
Double Click the lesson- **Graphing > Linear Relations > The Elastic Example > Setup Equations**
Click on the tab “**Frameworks**”.
DIFFERENTIATION: Tiered 3 part lessons, **Linear Relations – Elastic -1, -2, -3** for a suggestion to implement UMathX
 - A Framework can be found in 4 Possible Ways:
 1. In the **Content Menu**, a **green pencil** beside a lesson name indicates that a corresponding printable **framework** is available.
 2. In the **Selection Menu**, within a **Curriculum Menu**, the appropriate framework is available.
 3. In the **Main Menu**, select “**View a Framework**”
 4. **Navigate to .. www.umathx.com/frameworks**
- Each Framework:** .. is on 1 double sided printable page in colour or in black and white
.. has 3 parts: **Get Started**
Working At It
Reflect and Connect

A Framework is a model lesson on paper, sometimes tiered (arrow) already prepared for you.

STEP 4: Planning a Lesson with UMathX

- **OPTION 1 – Filling the Gap**
First .. Select the Content Menu. Choose the path to a particular lesson or sets of lessons.
Example: Place Value>Identify Place Value Patterns(to 1000)>D>Expanded Notation
Second .. Note a green pencil icon beside .. 1) Expanded Notation
This indicates that a corresponding framework is available.
Click on the framework and print it, possibly 1 for every 2 or 3 students in the group.
If it is a tiered lesson noted by 1, 2, 3 .. and Pyramid .. possibly print all 3 for a class.
- **OPTION 2 – Attending to your Curriculum**
First .. Follow the steps in the **WNCP CURRICULUM** menu for your choice.
Second .. Click on the **LESSON** button to make appropriate lessons available.
Third .. Click on the **FRAMEWORKS** button for appropriate frameworks if they exist. Print.

Some Examples for **PLACE VALUE** within the **WNCP Curriculum**

1.N.4 – Place Value> Model Numbers Grouped in Packages >C>Ones and Groups of Ten

2.N.4 – Place Value > Identify Place Value Patterns (to 20) >C> Tens & Ones to Pictures #2
(Place Value – 2 Digit Numbers – Different Ways)

3.N.5 – Place Value>Identify Place Value Patterns (to 1000) >D>Expanded Notation
(Place Value to 1000 – Expanded Notation)

UMathX QUICKSTART WNCP	A QUICKSTART into UMathX (K to 10 ..10 th Version of “Understanding Math”)

Concretely> D (Subtraction With Regrouping #3)</p> <p>4.N.8 – Fractions> The Meaning of Fract> Intro...Think, Write, Say> Circles (Fraction Intro- Pattern Blocks-1)</p> <p>4.SS.M.3 - Meas& Geom> Per & Area of Polyg> Areas of Polyg>Polyg to Simple Shapes> Ex 1 (Polygons Broken -1)</p> <p>5.N.5 -Whole#&Int>Mult&DivofWhole Nu>Multby2DigitMult>Part Prod-Area>Ex 1 (Mult 2 digit.PP24x37) - Whole # & Int> Mult & Div of Whole Num> Mult by 2 Digit Mult> Partial Prod-Area> Ex 4–Without Blocks</p> <p>5.PR.1 – Algebra> Patterns, Patterns, Patterns>Patterns to Formulas> Ex. 4 (Patterns with Toothpicks) (challenge) – Algebra>Patterns, Patterns, Patterns> Sum of Seq –Geom – Real Life (Sum of Geom Seq)</p> <p>6.N.5 –Fractions >Ratios & Proportions>Ratio, Tape Diagram>Introduction (Ratios & Proportions - Tape)</p> <p>6.N.5 – Fractions> Ratios and Proportions> Proportions> Ex 3 Marbles (Estimation U Proportions-1,-2,-3)</p> <p>7.N.2 - Fractions> Mult & Division of Dec> Mult by Partial Products Area> Ex 1 (Mult Dec by Partial Prod 2.4 x 3.7)</p> <p>7.PR.2 -Graphing>Read & Sketch Graphs>Graphs Without Scale> Ex 7, 9, 11 (Graphs Without – Creating -1)</p> <p>8.N.6 – Fractions> Multiplying Fractions> Developing the Rule> Ex. 3 (Multiply Proper Fractions -1)</p> <p>8.N.4 – Fractions> Ratios & Proportions> Ratio Table> Introduction 1 & 2 (Ratio Tables-Intro 2)</p> <p>8.PR.1 – Graphing > Slope of a Line > Slope > Steepness Factor (Slope In the Real World)</p> <p>9.PR.1 – Graphing> Eq Str Line > Word Prob-Applic>Walker> (Slope & Line –Walk in Real World-1)</p>
<p>TEST ACCESS Main Menu first page Activity window</p> <p>TEST TYPES: WNCP TEST CONTENT CUSTOM</p> <p>BOOKMARKING</p> <p>DATA ANALYSIS Lessons & Tests Growth, Useage</p>	<p>STEP 5: Tests / Data Analysis. Not Available on Preview. Suggest Webinar Training Individual can learn from mistakes and be directed to suggested lessons.</p> <ul style="list-style-type: none"> ● ACCESS: Landing Page .. Click on “Do a Test”  or Activity Window .. Click on the  icon <p> For a Class</p> <ul style="list-style-type: none"> ● TYPES: WNCP Tests – coverage within curriculum for a specific grade Content Tests cover items within a certain content area across grade levels Custom Tests are generated by the teacher by choosing any specific content. ● Analyze Data” in the Main Menu. The “Data Module” requires data by students. The full version allows students to do lessons and tests with results recorded into perpetuity. A teacher or student can then check student data .. tests, lessons, useage, growth and more.
