

This is a list of words to be used along with Measurement and Geometry – Section 1: Introduction to Measurement. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

Section 1: An Introduction to Measurement

Words Students Input	Words For Your Word Wall <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
	units standardized cubits metric displace Imperial different distance line segment estimate length reasonable centimeters (cm) subtract equals point inches (in) miles feet (ft) meter stick standard units linear measure decimeter (dm) deci centimeter (cm) centi millimeter (mm) meter (m) milli dekameter (dam) deka hectometer (hm) hecto kilometer (km) kilo corresponding benchmark US Standard Golden Ratio
