

This is a list of words to be used along with Algebra – Section 8: Factoring Expressions. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

### Section 8: Factoring Expressions

Words Students Input	Words For Your Word Wall <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
of difference common squares factor	multiplying expressions dimensions rectangle area factoring factors tiles length width common common factor terms greatest common factor common factoring monomial binomial trinomial difference of squares grouping pattern sum product coefficient
