

This is a list of words to be used along with Algebra – Section 9: Dividing Expressions. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

### Section 9: Dividing Expressions

Words Students Input	Words For Your Word Wall <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
monomial divide polynomial	monomial binomial polynomial fraction add subtract multiply divide simplify numerator denominator exponents common factor long division factor expression difference of squares
