

This is a list of words to be used along with Equations – Section 1: Tiles, Balances, and Equations. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

Section 1: Tiles, Balances and Equations

Words Students Input	Words For Your Word Wall <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
true	terms algebraic expressions negative positive variable equations root systematic trials solutions
