

This is a list of words to be used along with Graphing – Section 1: Reading and Sketching Graphs. The words students input are the words that students need to input within the software, spelled correctly, to complete a section. These words could be reviewed before starting a section and placed on a word wall.

### Section 1: Reading and Sketching Graphs

<b>Words Students Input</b>	<b>Words For Your Word Wall</b> <i>(This is a list of words that students should have prior knowledge of OR they will know by the end of the section)</i>
some more none steeper faster straight curved less time water level faster lower slower distance points Monday lowest ahead minimum August backwards decreases quickly age weight Lucinda taller heavier Yogi Mickey Brett Alex constant same decreasing rising falling increasing	slanted less steep narrower wider tallest shortest oldest youngest total distance rapidly Pictograph Bar graph Line graph cost liters rate graph scale right above representing older height higher speed interval league errors maintain falling temperature gradually quickly slowly widths volume constant rate
